Dear Applicant:

**SUBJECT: REQUEST FOR PROPOSALS (RFPs) FOR
STATE FISCAL BIENNIUM 2008-2009**

The Department of Labor and Industrial Relations, Office of Community Services (OCS), is soliciting proposals from qualified applicants to provide the following human services for State Fiscal Year 2008-2009:

| <u>RFP No.</u> | <u>Service Activity Title</u> |
|----------------|---|
| LBR 903-01 | Employment Core Services for Low-Income Persons |
| LBR 903-02 | Employment Core Services for Immigrants |
| LBR 903-03 | Employment Core and Support Services for Refugees |
| LBR 903-04 | Employment Creation for Low-Income Persons, Immigrants and Refugees |
| LBR 903-05 | Child Care Services for Head Start Parents |
| LBR 903-06 | Transportation Services for Low-Income Persons |
| LBR 903-07 | Food Collection and Distribution Services for Low-Income Persons |
| LBR 903-08 | Youth Services for Immigrants |
| LBR 903-09 | Weatherization Assistance Program Services for Low-Income Persons |

The indigent poor can no longer rely indefinitely on public assistance and must find a way to earn a living. Many welfare recipients and low-income persons possess multiple barriers to employment and lack the necessary experience and skills to find and maintain a job. Many low-

income persons, including disadvantaged immigrants and refugees, in Hawaii struggle to attain and sustain financial and social stability. Thus, there exists a need for comprehensive training and services to prepare these low-income persons for employment and to assist them to *“get a job and keep the job.”*

All prospective applicants are hereby notified that this RFP for competitive purchase of services is issued under the provisions of the Hawaii Revised Statutes, Chapter 103F and its administrative rules.

Program Title: Child Care Services for Head Start Parents

I. Introduction

A. Overview, Purpose or Need

The federal government provides funding for Head Start child care programs in Hawaii, although not all of these programs are able to sufficiently provide full-day child care services through federal funding alone. Currently, the number of available full-day programs does not meet the need of many Head Start parents for full-day child care that would allow these parents to work full-time or actively seek employment, training, or education opportunities. Under current federal and state welfare initiatives, the number of low-income parents in Hawaii who will require full-day child care to work, seek employment, training or education will increase.

The purpose of this Request for Proposal (RFP) is to procure services to extend existing part-day Head Start programs in Hawaii to full-day programs.

Head Start is administered by the U.S. Department of Health and Human Services - Administration for Children and Families. The Head Start program awards grants to local public and private non-profit and for-profit agencies to provide comprehensive child development services to economically disadvantaged children and families, with a special focus on helping children develop their early reading and math skills they need to be successful in school. Intended primarily for preschoolers from low-income families, Head Start promotes school readiness by enhancing the social and cognitive development of children through the provision of educational, health, nutritional, and social services to enrolled children and families. Head Start programs engage parents in their children's learning and help them in making progress toward their educational, literacy and employment goals. The Head Start Program also emphasizes the significant involvement of parents in the administration of local Head Start programs.

Head Start encompasses children from the age of three to the age when children enter kindergarten. Programs serve those families who have incomes below the federal poverty level or are eligible for public assistance.

Head Start also requires that a minimum of 10 percent of the enrollment opportunities be made available to children with disabilities. Such children are expected to be enrolled in a full range of Head Start services and activities in an inclusive or natural setting with their non-disabled peers, and to receive needed special education and related services.

In 2004, only 37.8 percent of Head Start participants were enrolled in a full-day, full-week program. Despite a proven track record in helping children and families succeed, Head Start only serves about half of all eligible preschool-age children. Even though some assistance is available to help low-income families afford child care, funds are extremely limited. In the United States, only one in seven eligible children receives federal child care assistance. According to the U.S. Census (three-year average for 2001, 2002, and 2003), approximately 114,000 of Hawaii's children or 35 percent of the population younger than 19, were living below 200 percent of the Federal Poverty Level. In Hawaii, the maximum annual income eligibility for child care assistance for a family of three in 2004 was \$44,136. The average annual cost in Hawaii in 2000 was \$5,505 for center-based child care for a four-year-old in urban Hawaii. Thus, quality child care is unaffordable for many Hawaii working families.

Children are born ready-to-learn with minds that are shaped significantly by experiences and environments in the first five years of life. This period sets the foundation for a child's healthy, successful development. Research and studies have shown that providing children with culturally responsive, proper early child care and education has a far-reaching, long-term impact on their development. Therefore, early learning programs, both public and private, should meet professionally-accepted standards, be staffed by well-trained, appropriately-compensated educators, reflect the cultural needs and diversity unique to Hawaii, and be available to all children from birth to entry into kindergarten.

B. Planning Activities Conducted in Preparation for this RFP

Pursuant to the Hawaii Administrative Rules § 3-142-301 State Agency Planning Activities, OCS conducted planning activities, including, but not limited to the following:

1. Took into account the views of provider organizations on how to improve service specifications to better achieve mandated goals. A request for information was utilized as designated in Section § 3-142-202;
2. Analyzed information from program monitoring and evaluation reports of current provider organizations;
3. Analyzed socio-economic and health data for trends to determine demand factors;
4. Considered the views of service recipients and community advocacy organizations on conditions affecting the achievement of mandated goals; and
5. Requested information from other state agencies on services to the same target population or on cooperative strategies to progress towards achieving a shared goal.

C. Description of the Goals of the Services

Head Start is a comprehensive child development program that serves children from age three to five or the age when children enter kindergarten. It represents a child-focused program and has the overall goal of increasing the school readiness of young children in low-income families.

Head Start Education focuses on delivering high-quality child development services to children from low-income families. Family and community partnerships are involved in the operation, governance and evaluation of the program. Wellness is recognized as a significant contributor to each child's ability to thrive and develop. Accordingly, health screenings evaluate the child's overall health status and regular health check-ups and good practices in oral health, hygiene, nutrition, personal care and safety are incorporated in the program. Fully including children with disabilities is a required element of the Head Start program.

The goals of these services are to provide low-income (1) children with quality care that improves their health, safety, learning, development, and family stability; and (2) parents with quality child care to allow them to work full-time towards economic self-sufficiency and to better support and assist their children's education.

D. Description of the Target Population

The target population for these services is low-income Head Start children and their parents, particularly working parents transitioning from welfare assistance seeking employment, training or education.

Section 645 of the Head Start Act (42 U.S.C. 9840) establishes income eligibility for participation in Head Start programs by reference to the Federal Poverty Guidelines, adjusted annually in accordance with changes in the Consumer Price Index.

E. Geographic Coverage of Service

Services are to be provided at Head Start programs in the counties of Honolulu, Hawaii, Maui, and Kauai. The applicant shall demonstrate capability to provide the required services in the areas and centers for which it applies.

The applicant will serve the eligible children and their families/caregivers for the geographic areas (counties) where the contract is awarded.

The applicant is responsible for identifying clearly the geographic areas that it proposes to serve.

F. Probable Funding Amounts, Source and Period of Availability

Subject to availability of funds, \$313,000 in State General Funds is suggested for each year of the State fiscal biennium 2008-2009. Funding is anticipated to be from state sources, though the source and amount of funding may be subject to change prior to the effective date and over the life of the contract(s).

Funding will be allocated based on the proposals submitted.

For each year of the biennium, the suggested funding amounts are:

| | |
|-----------------------------|-----------|
| City and County of Honolulu | \$118,000 |
| Hawaii County | \$ 85,000 |
| Maui County | \$ 55,000 |
| Kauai County | \$ 55,000 |

Contracts awarded as a result to this solicitation will be awarded for two (2) years. Second year of the contract may be subject to renegotiation based upon the availability of funds, the continued need for services, and the State's determination of provider's first year program performance.
